SUMMARY

Graduating Electrical Engineering student with a strong interest in power and renewables. Bridges practical field installation experience with data-driven asset performance monitoring. Equipped with a robust technical skill set including Python, MATLAB, and SQL to solve complex engineering challenges in the energy sector.

INTERNSHIP EXPERIENCE

Intern, Plant Performance and Asset Management

July – Oct 2025

ACEN Corporation

Makati City

- Supported the Plant Performance Team in consolidating operational data from 23+ powerplant sites.
- Streamlined plant downtime data organization using advanced MS Excel automation methods, reducing manual overhead and reducing entry errors.
- Engineered and presented daily performance dashboards for management by extracting data via Snowflake SQL and visualizing it with Excel Power Query and Tableau.
- Coordinated with several solar and wind plants on submission of RCA reports on issues for team analysis.
- Facilitated the successful handover of the Daily Asset Performance Report framework to the Data Management team, fully completing the transition within a 1-month timeline.

Engineering Intern

July – Aug 2024

IRAH Solutions and Service, Inc.

Quezon City

- Assisted in the design and physical installation of FDAS and auxiliary systems using AutoCAD, ensuring accurate wiring compliant with standards.
- Resolved site equipment shortages by coordinating with the main office to expedite logistics, effectively preventing project downtime.

EDUCATION

Pamantasan ng Lungsod ng Maynila

Intramuros, Manila

Bachelor of Science in Electrical Engineering

Graduating: July 2026

- Member: PLM DOST Scholars Association
- Member: PLM Junior Institute of Electrical Engineers
- Scholar: DOST-SEI Merit 2020

GWA: 1.73

De La Salle University – Manila

Malate, Manila

Senior High School – STEM

2018 – 2020

- Member: DLSU SHS Robotics and Engineering Club
- Outstanding Student Presentors (Gold): DLSU SHS Research Congress 2020

ACADEMIC PROJECTS

Thesis: Anaerobic Digestion of Chlorophyta Biomass Co-digested with Livestock Manure: Harnessing Biogas for Methane-Derived Electrochemical Energy Conversion in Cabuyao, Laguna

- Conducted small-scale exploratory project on an alternative renewable fuel source using a modified mixture of algae and cattle waste as biomass feedstock for methane gas production.

Research Capstone: Statistical Analysis of Psychological Health and GWA of DLSU 118 STEM Students

- Conducted and analyzed a statistical correlational study of GWA and mental health of university senior high school STEM students in DLSU Manila; presented at DLSU SHS Research Congress 2020.

SKILLS

Software:	Microsoft Office Suite (Excel, Word, Powerpoint, Teams), Google Workspace (Drive, Docs, Sheets, Slides), Canva, TinkerCAD, PowerWorld Simulator, DIALux evo, PowerBI, PowerQuery, Snowflake, ETAP
Programming:	Working knowledge of Python, MATLAB, and SQL; Basic knowledge of C/C++
Language:	Filipino (Native), English (Native/C2)

CERTIFICATIONS & AWARDS

Lean Six Sigma Yellow Belt, MF Treinamentos, 2025

Electrical Installation and Maintenance NCII, TESDA, Cert No. 2513*****3054, 2025

Photovoltaic System Installation NCII, eTESDA, 2025
